EDUCATION

Nanyang Technological University (NTU)

Singapore, Singapore

Bachelor of Science in Mathematical and Computer Sciences

Aug 2021 – Apr 2025

- **Awards:** Awarded with the **Nanyang Scholarship**
- **Grades:** 4.55
- **Relevant Coursework:** Distinctions in Data Structures and Algorithms, Object-Oriented Programming, Databases, Operating Systems, Computer Network, Cloud Computing, Database System Principles
- **Personal Website:** <https://moroha29.github.io/>

WORK EXPERIENCE

Discovermarket Asia Pte. Ltd.

Singapore, Singapore

Software Engineer Intern

Jan 2024 – May 2024

- Developed an AI-powered chatbot using Streamlit and OpenAI, enhancing user engagement by automating customer support.
- Created 3 machine learning-driven demonstrations to optimize insurance policy pricing, resulting in clearer data visualizations and insights.
- Analyzed and identified 2 key areas for product improvement, leading to the proposal of actionable solutions that increased efficiency.

Solderfield Pte. Ltd.

Singapore, Singapore

Software Engineer Intern

May 2023 – Dec 2023

- Engineered frontend components for a web application using Angular, improving user experience across mobile and desktop platforms.
- Authored comprehensive unit tests with Jasmine and Karma, ensuring product reliability and reducing bugs by 30%.
- Enhanced UI/UX with HTML, CSS, Bootstrap, and PrimeNG, significantly improving the visual appeal of web applications.
- Created a reusable frontend framework boilerplate, boosting developer productivity by 50%.
- Conducted thorough documentation for seamless project handovers, improving knowledge transfer and reducing onboarding time for new developers.

Republic of Singapore Air Force

Singapore, Singapore

Operation Specialist

Oct 2018 – Jun 2021

- Automated duty planning and documentation processes using VBA in Excel, increasing productivity tenfold and reducing manual entry errors.

LEADERSHIP EXPERIENCE

Isami House (Eunoia Junior College)

House Committee Member

2017 – 2018

- Led the organization of campus-wide events, including the annual Sports Day, engaging over 1,000 students and staff.
- Acted as a liaison between the student body and school administration, fostering a collaborative environment and improving communication channels.

Nanyang Technological University

Scholarship Buddy

2023 – 2024

- Organized and participated in networking events, guiding future scholars in their decision-making process regarding NTU and its scholarships.
- Provided personalized advice and support to 10 prospective scholars, increasing their confidence in accepting NTU's scholarship offers.

PROJECTS

Rizz-ume - Telegram Bot

https://devpost.com/software/rizz-ume?ref_content=user-portfolio&ref_feature=in_progress

- Co-led a team of 4 to develop Rizz-Umé, a machine learning-powered Telegram bot that serves as a personal career consultant, offering tailored resume feedback and job recommendations.
- Leveraged technologies such as Telegram Bot API, Node.js, OpenAI, and Firebase to deploy the bot within 48 hours, integrating a fully operational database.

Moblma - Java Project

- Implemented a modular movie booking system in Java, following Object-Oriented Design Principles to ensure maintainability and scalability.
- Collaborated on a team-managed GitHub repository, maintaining version control and streamlining the development process.

Don't paiseh – AI question generator

<https://devpost.com/software/don-t-paiseh/>

- Co-led a team of 4 in developing Don't Paiseh, an AI-driven application that generates culturally relevant, humorous questions for Singaporeans.
- Deployed the application using OpenAI, FastAPI, and NextJS within 24 hours, achieving full database integration and delivering a functional product under tight deadlines.

NTutor – AI tutor

https://devpost.com/software/team-73_ntutor

- Led a team of 4 to develop NTutor, an AI-based tutor application that generates practice questions and resolves student queries via a chatbot.
- Employed data science tools like Streamlit, Python, and OpenAI to create an intuitive and responsive educational tool.

SKILLS

Programming Skills: Python, SQL, C, TypeScript, Javascript, Java, HTML, CSS

Areas Of Experience: Data Science, Machine Learning, Web Development, Frontend Development, Full Stack Deployment, Unit Testing, Database Management, Documentation Writing, UI/UX Development, Project Management,
